

Our fleet of new street sweepers can handle any commercial or residential development.

STREET SWEEPING

EXCEPTIONAL VERSATILITY – Whether you need to clear the land of brush and trees to prepare a site for construction or sweep the streets of a newly opened community, Eastcoast Site Work can deliver the manpower, professional skill and equipment to move your job along quickly and efficiently. We provide silt fence installation, inlet protection, street sweeping, lawn maintenance, sign design and installation, trench digging, drive pads, snow removal, safety and snow fencing. “We do jobs others won’t take on. We do them well and we do them fast,” says President Michael Garofalo.

QUALITY – Eastcoast Site Work brings reliable labor with professional supervision in a broad range of construction services to every job site it works on. Pride in every job we do, state-of-the-art equipment, fast response and quality control are the hallmarks of our company.

SNOW REMOVAL

With a fleet of new snowplows, Eastcoast Site Work will help you weather the worst storms with 24-hour snow removal services. “Your safety is our goal.”

Eastcoast Site Work

SOIL EROSION AND SILT FENCE SPECIALISTS

Eastcoast Site Work makes and stocks silt fence for immediate delivery and installation. All silt fencing is inspected before it goes in our warehouse as part of our quality control. Our warehouse contains everything we will need to get your construction site open fast.
